1 Purpose

1.1 The Council's Street Trading Policy aims to create a street trading environment which:

- complements premises-based trading.
- provides diversity and consumer choice.
- supports community cohesion and equalities.
- enhances the character, ambience and safety of the local environment.
- is sensitive to the needs of residents and business.
- highlights the standards expected of street traders.
- provides guidance to those that administer the street trading service.

2 What is Street Trading?

2.1 The purpose of Schedule 4 of the Local Government (Miscellaneous Provisions) Act 1982 (the Act) is to ensure that Councils can properly regulate those who sell without the use of ordinary business premises and, particularly, traders who move from place to place. It is concerned, primarily, with commercial activities, excluding the provision of services.

2.2 Conwy County Borough Council has adopted Schedule 4 of the Local Government (Miscellaneous Provisions) Act 1982 for the whole of the County Borough Area. All the streets in this area are designated as Consent Street except those streets designated as Prohibited Streets (Appendix A) (excluding the Community of Llysfaen). The effect of this designation is that trading in any street is prohibited by law (subject to legal and other exemptions set out in Section 3 below), without first obtaining a Street Trading Consent (a Consent) from the Council.

2.3 Street trading means 'selling, exposing or offering for sale any article (including a living thing) in a street'. The term 'street' includes 'any road, footway, beach or other area to which the public have access without payment'.

2.4 The fact that a trader has a lease or licence i.e. a right to occupy the land, or has some other form of consent e.g. planning consent, lease or a licence under the Licensing Act 2003, will not override the requirement to obtain a Street Trading Consent where the trading amounts to street trading. Similarly, holding a Consent for street trading will not override any byelaws or remove the obligation on the trader to comply with any other legal requirements e.g. registration as a food business, nor override the duty to comply with the general law concerning e.g. trespass (e.g. the landowner's permission to occupy the land and trade must be obtained prior to an application), Conwy estates, highways, planning, licensing, health and safety, nuisance, waste disposal requirements etc.

2.5 Any person street trading without a valid Consent commits a criminal offence. The courts have held that the definition of a 'street' does not depend upon the area of land in question being in public ownership and private land may be classified as 'a street' too if it meets the definition in the Act and the precise circumstances of the trading indicate that it amounts to street trading (street as defined in 2.3).

2.6 The matters that the Council is likely to consider relevant when deciding whether an area is a 'street', or street trading is taking place, include:

- whether the trading outlet is built on solid foundations;
- whether the trading takes place within a building including areas where one or more sides are open to the elements
- the nature of construction of the trading outlet e.g. of brick/block □ which of the mains services are connected (if any)?
- whether permanent planning permission has been gained
- would the trading outlet be difficult to move? I.e. is a crane required to move it onto or off of a site?
- whether it comes and goes onto the site e.g. it is removed each day?
- whether the trading outlet moves or is capable of moving or being moved to a different site(s) each day?
- distance from the nearest highway. If you are trading within 15 metres of a street, road, car park or public footpath there is a presumption that you will need a street trading consent subject to the other exemptions applying. If you trade

from a position of more than 15 metres from a street, road or car park, please contact the Licensing Service to see whether a Consent is required as each case is judged on its own set of circumstances.

- the original purpose/nature of the item for sale e.g. whether it is a wholly charitable or domestic purposes or is the sale of a service rather than goods.

2.7 No consent can be given to trade upon any dual carriageway or area under the Authority of the North and Mid Wales Trunk Road Agency (e.g. the A55, A470 & A5).

2.8 No consent may be given to any area subject to a byelaw or area subject to a street trading Public Space Protection Order (PSPO)

3 Exemptions

3.1 Some types of trade are exempt from the need to obtain a street trading consent. These include:

- a person trading under the authority of a Pedlars' Certificate granted under the Pedlars Act 1871 (issued by the Police) excluding areas subject to a street trading Byelaw/PSPO or private property.
- trade carried on or at a licensed petrol filling station
- a market trader operating at a market venue which acquired this status by virtue of a grant, enactment or order.
- shops do not require a Consent if they operate within their defined curtilage outside the actual building, providing the trading is, essentially, an extension of the shop etc e.g. where a shoe shop has rails of shoes on display outside the shop; again this does not negate the need to comply with other legislation such as the requirement for a pavement licence (obtainable from CCBC), if appropriate:
- trade carried out by 'roundsmen.' A 'roundsman' has been defined as one who visits a 'round' of customers delivering the pre-orders of those customers". e.g. milkmen. N.B An operator of an ice cream unit is not a roundsman.
- charitable collection, unless goods are sold (although a collection permit, under the Charities Act 1992 may be needed).

4 Street Trading Consents for which fees are not payable

4.1 An application will still be required but Conwy County Borough Council will not require the payment of fees for the following street trading activities:

- Goods from working farms sold at or on the premises where they were produced.
- Sales of articles (not for trade) by householders on land contiguous with their homes.
- Goods sold by schools at or on the premises where they were produced.

4.2 The above does not negate the need to comply with other legislation, such as a Temporary Events Notice, Pavement Licence or Planning Permission.

5 Nature of goods

5.1 The Council would not normally grant a Consent for the sale of goods which conflict with those provided by nearby shops or markets where it may provide an unfair economic advantage to the holder of the Consent.

5.2 The type of goods allowed to be sold will be considered on a site by site basis having particular regard to local needs, product diversity and specialism e.g. artisan breads, and appropriateness of the proposed location in terms of space and balance.

5.3 Street trading hours may mirror, normally, those of the shops or businesses in the immediate vicinity except for markets, events or hot food or other takeaway (street foods) where trading hours may be determined on a site by site basis.

5.4 The Council will not allow the sale of:

- drugs or smoking/vaping paraphernalia,
- non-fishing catapults,
- BB-Guns, or weapons of any kind.
- live (not including fishing bait) or performing animals
- any item that might cause alarm distress or offence (determined by the delegated Officer).
- hot food and drink between 23:00 - 05:00 unless an authorisation is available under The Licensing Act 2003.

6 Site Assessment

6.1 In determining whether Street Trading in a particular area is appropriate the Council will have regard to:-

- the safe access and any effect on road safety, either arising from the siting of the pitch or from customers or, staff visiting or leaving
- any loss of amenity caused by noise, traffic or smell
- existing Traffic Orders e.g. waiting restrictions
- any potential obstruction of pedestrians or vehicular access
- whether there are any Consents already granted to a site in the vicinity, the design and appearance of the Trading Unit e.g. stall, barrow, van or cart.
- the character and ambiance of the requested site.
- the general use of the area.

7 Applications

7.1 Street Trading Consents (excluding prohibited streets and highways referred to in section 2.7) may be issued for:

Prime fixed site

- Colwyn Bay Promenade, West Promenade, Rhos Promenade and Marine Drive.

- Conwy, Lancaster Square *where specifically permitted*
- Conwy, Lower Gate Street (bandstand) *where specifically permitted*
- Conwy, Rosehill Street *where specifically permitted*
- Madoc Street, Llandudno.

The prime fixed sites will pay a higher fee to reflect the fact that trading in this part of the County is subject to a higher footfall and trading mainly takes place on the street rather than on private land, thereby not incurring additional charges for ground rent.

Standard fixed and roaming sites.

All other areas of Conwy County Borough Council

The standard site pays a lower fee to recognise that trading in these areas are less lucrative and may face additional costs compared to the prime sites.
