

Parent Testimonies for Parent Pay

I find parent pay very helpful as I don't need to obtain cash or write a cheque and take it into school on a busy morning before work. The system is very convenient to use and I can log onto my computer at any time to make a payment. I also find it very useful to check on my balance and keep up to date or look at payments that I have made and be confident that all my payments have reached my child's account.

Linos H Williams.

I have found Parent Pay very useful. No more looking for the correct change to send to school every day. Now I credit my account then pay school dinner and fruit money when necessary.
